

STEYR MOTORS LIMITED ENGINE WARRANTY

STEYR MOTORS, GmbH ("STEYR MOTORS") warrants to the original retail purchaser of a product covered under this Warranty ("the Product"), and to any other person to whom the Product is transferred during the duration of this Warranty, that in the event of a failure of the Product occurring during the applicable warranty period resulting from a defect in materials or factory workmanship, STEYR MOTORS will, at its option, repair or replace the defective Product according to the terms and conditions set forth herein.

Products Warranted

This Limited Warranty applies to all new marine engines manufactured by STEYR MOTORS, GmbH and sold by STEYR MOTORS or by a STEYR MOTORS approved distributor or dealer until such time as this Warranty may be subsequently updated or revised. This Warranty also applies to the following engine accessories when approved and supplied by STEYR MOTORS and when installed by STEYR MOTORS or by a STEYR MOTORS approved distributor or dealer:

- acc. To enlisted distributor as stated in STEYR MOTORS Service Network (refer to website at www.steyr-motors.com)

This Warranty does *not* apply to any component manufactured by a third party and supplied by STEYR MOTORS as part of a package. Such non-covered components include, but are not limited to, any MerCruiser Bravo Series stern drive, ZF Marine transmissions, sail drives, water jet and commander systems, etc., that may be sold together with a Steyr engine. Buyers of a package that includes a MerCruiser Bravo Series stern drive should consult the product literature accompanying the stern drive for details on the warranty provided by its manufacturer, Mercury Marine. The provided warranty registration card with the Mercury Marine/MerCruiser product needs to be returned to STEYR MOTORS for registration in their system.

What You Must Do to Activate the Warranty

Owner Registration

IMPORTANT: In order to obtain the full benefit of this Warranty, your new Steyr engines must be timely registered at the factory, latest within 3 years from the date of sales document.

It is your responsibility to insure that the STEYR MOTORS distributor, dealer or OEM from whom you purchased the engine(s), registers your engine(s) at the STEYR MOTORS factory and re-confirms this to you in the Operation, Maintenance and Warranty Manual/chapter Warranty/Warranty Registration Approval.

The Warranty Registration Approval must include product number and serial number(s), vessel -builder -model and -serial number, impeller/propeller- size, Date of Commissioning and warranty expiration-date by STEYR MOTORS. It must also contain the Issuer's -name, -Company, -address and -signature as well as the Owner's -name, -address and -signature.

In case of an engine doesn't get put into operation within the first year from production, the STEYR MOTORS long-term preservation and conservation procedure must be followed and documented as described in this procedure to prove proper storage handling and re-commissioning of the product.

A copy of the Warranty Registration Approval MUST be given to you immediately after the document has been completed by the selling STEYR MOTORS distributor, dealer or OEM. In the event of warranty service work, you can prove via the Warranty Registration Approval to any STEYR MOTORS distributor/dealer that your product has been successfully registered at the STEYR MOTORS factory.

Failure to register the Product with the factory within 60 days of the date on which you take delivery of the Product will cause the warranty period to begin running from the date on which the Product is shipped from STEYR MOTORS in Austria, rather than on the date of delivery to you. It is to your benefit to have all Products timely registered at the factory so that you receive the maximum available coverage under the Warranty and so that STEYR MOTORS has a means of identifying and contacting you in the event of product updates or service notifications.

Commissioning Report

It is the sellers (STEYR MOTORS distributor, dealer or OEM) responsibility to send a completed "Commissioning Report" to STEYR MOTORS factory for a successful warranty registration of the engines.

Without any official acknowledgment from STEYR MOTORS factory, the seller (STEYR MOTORS distributor, dealer or OEM) must not sign the Warranty Registration Approval in the Operation, Maintenance and Warranty Manual.

In case the Warranty Registration Approval has been signed irregardless of the official confirmation from STEYR MOTORS factory, STEYR MOTORS cannot be held responsible for any warranty. Under such circumstances the warranty coverage becomes full responsibility of the signing-party!

Base Engine Warranty

The Base Engine Warranty covers any failure of the Product under normal use and service that occurs during the applicable period of coverage and that results from a defect in STEYR MOTORS material or factory workmanship (a "Warrantable Failure").

STEYR MOTORS' Responsibilities under the Base Engine Warranty

During the applicable period of coverage under the Base Engine Warranty, and subject to all conditions, limitations and exclusions herein, STEYR MOTORS will, at its option, either repair or replace the defective Product. Labor costs will be paid by STEYR MOTORS only for work pre-authorized by STEYR MOTORS and performed by an approved service facility during normal business hours. Labor costs will be paid in accordance with STEYR MOTORS' published standard repair time guidelines. Parts used in warranty repairs may be new STEYR MOTORS parts, STEYR MOTORS-approved rebuilt parts, or repaired parts.

Conditions of Warranty Coverage

This Warranty is expressly conditioned upon proper application, installation, commissioning, operation, and maintenance of the Product in accordance with the specifications and guidelines set forth by STEYR MOTORS in its Operations, Maintenance and Warranty Manual and in its Installation- and Service- Manuals. Proper use and operation of the Product entails, among other things, use of the Product in strict compliance with the following power ratings:

Pleasure Duty (PD). This power rating is intended for use in variable load applications where full power is limited to one (1) hour out of every eight (8) hours of operation. Reduced power operations must be at or below cruise speed (rpm). Cruise speed (rpm) is 200 rpm below the engine rated speed (rpm). Also, the defined propped speed range must be met and is specified in table propped speed range (Operator Manual, chapter Propeller selection) for each engine model. This rating (ISO3046 Fuel Stop Power Rating) is for application operating less than 300 hours per year and is intended exclusively for pleasure/non-revenue generating applications.

Engines rated "Pleasure Duty" may not be used for any commercial application without voiding the product warranty. A "commercial or governmental application" includes any work or employment-related use of the Product, or any use of the Product that creates income, even if the Product is only occasionally used for such purpose. A "commercial application" also includes charter, naval, police, and other similar applications.

Commercial or Governmental Duty according to Marine Duty Rating. If an engine is intent to be used for commercial operation the application must comply with below described duty rating conditions. The duty ratings are defined in three different engine operation pattern and annual use of the unit. The operation pattern defines a ratio between full power-speed-range and cruising-speed-range, wherein cruising speed must be maintained on a specified reduced rpm below the engine rated speed. The specified reduced speeds are mentioned in the Marine Duty Ratings below.

High Output (HO). This power rating is intended for intermittent use in variable load applications where full power is limited to one (1) hours out of every eight (8) hours of operation. Reduced power operations must be at or below cruise speed (rpm). Cruise speed (rpm) is 300 rpm below the engine rated speed (rpm). Also, the defined propped speed range must be met and is specified in table propped speed range (Operator Manual, chapter Propeller selection) for each engine model. This rating (ISO3046 Fuel Stop Power Rating) is for application operating less than 300 hours per year.

Intermittent Rating (INT). This power rating is intended for intermittent use in variable load applications where full power is limited to two (2) hours out of every eight (8) hours of operation. Reduced power operations must be at or below cruise speed (rpm). Cruise speed (rpm) is 200 rpm below the engine rated speed (rpm). Also, the defined propped speed range must be met and is specified in table propped speed range (Operator Manual, chapter Propeller selection) for each engine model. This rating (ISO3046 Fuel Stop Power Rating) is for application operating less than 1,500 hours per year.

Medium Continuous Rating (MCD). This power rating is intended for intermittent use in variable load applications where full power is limited to three (3) hours out of every twelve (12) hours of operation. Reduced power operations must be at or below cruise speed (rpm). Cruise speed (rpm) is 400 rpm below the engine rated speed (rpm). Also, the defined propped speed range must be met and is specified in table propped speed range (Operator Manual, chapter Propeller selection) for each engine model. This rating (ISO3046 Fuel Stop Power Rating) is for application operating less than 3,000 hours per year.

STEYR MOTORS' duty of performance under this Warranty is expressly conditioned upon the purchaser's maintenance of the following documentation and records which must be made available to STEYR MOTORS in the event that warranty service is required:

- You are responsible for keeping complete and accurate records of all service performed on the engines and for maintaining a log of all regularly scheduled maintenance in the Owner Service Log included in your Operations, Maintenance and Warranty Manual.
- You are responsible for assuring that at all times the engine hour meter on your Steyr engines is in good working order and in a condition that accurately reflects the total hours that the engines have been operated.

Procedure for Making a Warranty Claim

Warranty service may be obtained from any approved STEYR MOTORS distributor or dealer. For a list of approved service locations, please refer to Steyr Motors' website at www.steyr-motors.com or contact STEYR MOTORS' After sales Division, the contact information for which is provided on the final page of this document.

In the event of a Warrantable Failure arising during the applicable warranty period, a warranty claim must be submitted promptly **IN WRITING**. A warranty claim must be made immediately upon discovery of facts that would lead a reasonably prudent owner to believe that the Product is defective in materials or factory workmanship, but in no event more than 30 days after such discovery.

In case of a warranty claim, please contact any approved STEYR MOTORS distributor or dealer and present your Warranty Registration Approval (at least your engine serial number). You may also be requested to present a copy of your maintenance- and service- records.

A STEYR MOTORS Warranty Claim Form (a sample copy of which is available from STEYR MOTORS' website at www.steyr-motors.com) must be completed by the dealer or distributor and returned to STEYR MOTORS in Austria. It is your responsibility to insure that the Warranty Form is properly completed and to retain a copy for your records as proof of the making of a timely warranty claim.

All warranty claims **MUST** be approved by STEYR MOTORS before any warranty work is undertaken. No distributor or dealer of STEYR MOTORS is authorized to approve, or to guarantee approval of, a warranty claim. Any work performed prior to obtaining authorization from STEYR MOTORS will be at the risk of the owner and/or service facility undertaking the work. Upon approval of a warranty claim, you are responsible for making the Product available for repair at the place designated by STEYR MOTORS within a reasonable period of time.

Important: The foregoing procedures for making a warranty claim are mandatory. Failure to comply with the requirements for submitting a warranty claim shall be presumed to have deprived STEYR MOTORS of adequate and timely notice of a defect and shall relieve STEYR MOTORS of any duty of performance under this Warranty.
